

Wrapplicator[®]

hand wrap taken seriously

At PackTools 2.0 B.V. we continuously strive to develop products and solutions that create value and competitive advantage. This time we've come up with something that REALLY makes your business stand out: the Wrapplicator[®]

This one-of-a-kind hand wrapping dispenser allows your customers to enjoy the full benefits of your product. And yours EXCLUSIVELY! Not only is the smart dispenser adjustable in size to suit your specific kind of film (even coreless ones), it has

also 24 pre-stretch options ensuring wrapping and load consistency. Perfectly tailored, the Wrapplicator[®] emphasizes the uniqueness of your films, leaving the competition far behind!

Wrapplicator[®]'s unique features also allow wrapping more pallets with less film, therefore reducing cost-per-load. To be used single handed, walking forward and without bending over, its intelligent design contributes to health and safety of your operators.

Hand wrapping made perfect. With the smart Wrapplicator®

- Custom made for your specific range of films (any size, and even coreless ones!)
- Ready to use
- 24 pre-stretch options (3-100%)
- Reducing cost-per-load by wrapping more pallets with less film (LEAN)
- Consistent load stability (compliance to EU-guidelines)
- Brandable (any color and/or symbol)
- One hand operation
- Ergonomic design (walking forward and upright)
- Provided with magnets for easy storage
